3pm UK GMT to 11pm

with Clare Glennon & Richard Farmer

Online with Zoom

The Invitation

As a Metatronic Student you are invited to this Deepening Day. This day has evolved out of the days Richard has been offering the Bristol students into one that is now a biannual opportunity to taste new Transmissions and Attunements, practice together and be healed inspired and deepened in your Metatronic Path.

Where

The Day will be online via the Zoom App allowing you to have your Metatronic input in the heart of your home. You just need to ensure that you can create some space and time from the daily family routine.

What will we do?

Our intention is to now bring Attunements and Transmissions for your Health and Wellbeing which Metatron has been developing in the recent past. These we will offer “in sequence” and will not be repeated for some while, so this is your opportunity to be at the start of it.

We will also update you on any new insights and developments in Metatronic Life & Healing, including taking you through the new Metatronic Vaccine Support for all that we have given to students.

There will also be the opportunity to have a healing from us and if we have time to give each other a healing. And of course the opportunity to share and ask questions.

Part of the Wellbeing Transmissions on this day will be the sacred geometry of the Vitamins and this time it will be Vitamin D, which will sit in your system

and resonate and supporting the Vitamin D that you already have, this will improve your immune system as well as your bones and lung health amongst other things.

In addition, there will be the essence of “Olive Extract” this helps with similar benefits but in addition good for weight balance, helps eliminate free radicals, and lowers blood pressure.

To book

The cost for the day is £45 (£30 reduced), the important thing is that you come, so if finances are in your way do let me know and we can make it possible perhaps with something as simple as a donation option. . I would appreciate booking as soon as you can. I hope you say YES
