

For all students

Metatronic Healing® Protocol

to potentially minimize any disruption
when receiving the COVID Vaccine

Pfizer/Moderna or Oxford AstraZeneca

The Aim:

This protocol is for all students of Metatronic Healing® to use for themselves and for anyone who wishes to be supported through the process of COVID 19 vaccination by them.

The Protocol

- * *to be given close to, or shortly after, (within 2 weeks) of receiving the vaccine*
- * *to be given one to one*
- * *for the purpose of this general protocol, it is not necessary to know which vaccine is given or how the vaccine works*
- * *for those with Step 5 – Music of the Spheres onwards, this can be given at a distance*

1. Preparation for receiving the vaccine: for the Giver

- Come into your heart and connect with yourself
- Then connect with Metatron.
- Then connect with a gentle or neutral touch to the receiver

For the Receiver

With intention to bring in:

- **Cool Fire** – to simplify the person/system.
- **Silver Grey (Herkimer Diamond if you have it)** to clear any congestion in the energy pathways.
- **Warm Fire** to bring them optimal nourishment and receptivity for the process.
- Ask Metatron to bring in whatever is needed to optimally prepare them and tune them in readiness for this process.

2. Wake up the Immune System:

Before receiving vaccination

- Ask Metatron to bring the Immune System to a place of “active listening” for what is coming. (The vaccine and all components).

After receiving vaccination

- Ask Metatron to strengthen and fortify the Immune System.

3. The Vaccination – harmonising and clearing it:

- Support the ***whole system** to recognize and accept the vaccine and all components as smoothly, harmoniously, and as optimally as possible.
- Optimize the education and response of the immune system through the vaccine process, building immunity to the maximum potential.
- **Silver Grey (Herkimer Diamond if you have it)** or **intention** to clear from the ***whole system** any residual from the vaccination process that is no longer needed.
- Seal off any of the vaccine components that are not cleared from the ***whole system**.

4. Integration the process - Pure Spirit – Violet (add Melchizedek if you have it)

- To harmonize the vibration of the vaccine within the ***whole system** for maximum benefit while minimizing any adverse side effects both short and long term from all the substances that have been received in this vaccination process.

5. Finish with Metatron’s Blessing

***whole system** (*including energetic bodies, physical body and all body systems*)
