

# Metatronic Life & Healing®

**Advanced** Healing Training  
online

2<sup>nd</sup> to 5th December 2021

## Overview

The Advanced Metatronic Healing Training will be a quantum leap in not only your understanding of a Metatronic Healing and how to use it, but what you can use it for. It is as they say a “game changer”. Some who have already taken it have talked about it being the missing link. If you are a Practitioner and have taken the relevant Metatronic Steps to be eligible for it, you cannot afford NOT to say yes!

With Metatron’s promise to “Lift the Story” and with the abundance of healing energies at our disposal we know that Metatronic Healing is second to none at dealing with the cause, the root cause of most problems. However, there is something missing and these are tools to work with the condition or outward symptom of a problem. This Advanced Training will remedy this.

It will do this by clarifying and meeting the three criteria needed for any healing to be successful. The first is that there is enough energy in the system to carry any healing work done. The second is to deal with the cause of the problem at its root. The third is to tackle the symptom itself. So for instance, if there is a virus, the energy system needs to be strong, the cause creating that weakness needs to be addressed and finally the virus needs to be returned home.

In addition, some combinations of herbs and spices to help the process of healing. This is something which will be added to in time as we develop our understanding and work with Metatron to bring into the course structure more transmissions to help a few common problems.

The latest addition is a deeply radical, yet profoundly simple Metatronic Protocol for clearing and supporting the whole energy system. These protocols ensure that the clients energy system is as active and energised as possible, which makes any healing intervention so much more effective. They also can also be used to promote a healthy energy system and vitality for Practitioners.

Finally, there are the new Advanced Practitioner Attunements to take you to a deeper level.

**Who Can Apply?** Any Metatronic Student that has taken the Metatronic Healing Training – the Foundation. Since we last offered this, because of the continued grounding of the system, the requirement has now dropped, so that if you have completed Step 4 (it was Step 5), you may now take this training.
